Hello, my name is May Moe. On my last science exam, I failed because I was bad at open-ended questions. Candellar taught me a method that helps with booklet B questions. I decided to practice it almost B questions. I decided to practice it almost every day, and I actually improved my writing. Candellar also taught me the topics that I was weak in specifically, and they improved.

Before attending Candellar, I had difficulties which was lack of interesting vocabularies. However, Candellar provided me with a comprehensive vocabulary list and taught me phrasal verbs, which help me improve my writing and speaking skills . His lessons are targeted towards the MOE syllabus, and the worksheets provided are helpful in clarifying my doubts. I highly recommended Candellar to anyone who wishes to improve their language skills.
